View of Newport.

Newport, with its topographical beauties and fine ocean shores, its charming villas and sumptuous mansions, and its many interesting historical associations, make it to-day the most fashionable and elegant of all our watering places.

The chief picturesque attractions of the place are three fine beaches. The first beach is chiefly used as a bathing ground by visitors At the second beach are the famous rocks called Purgatory and the Hanging Rocks, within whose shadows the celebrated Bishop Berkeley wrote his "Minute Philosopher." Nearer to the city, and upon the coast, is the great Spouting Cave. The Glen, Lawton's valley, Lilly Pond, Bellevue and Ocean avenues, and other localities are charming places to ride to.

Among the venerable buildings still to be seen, is the ancient State House, erected in 1742. From its steps in July, 1776, Major John Handy read the Declaration of Independence, *fifty* years afterwards he was called upon to read it from the same spot on the anniversary of our independence. His children reside in Newport; the Redwood Library, erected in 1748 (among its collections are eighty-

four large volumes presented by William the Fourth, King of England;) Tammany Hall Institute; Trinity Church; dating back to 1726; the Vernon Family Mansion, 13 Clarke street; the "Penrose House," on Church street, where Washington dined and danced; the Channing house erected in 1720; Com. Perry's House, 9 Washington square; the City Hall, erected in 1763; the fortifications in the harbor, and the "Old Stone Mill," a relic of a period past remembrance, and which has caused much speculation as to its origin; Lime rock the home of the Newport heroine, Ida Lewis; Fort Dumpling; Goat Island; Rose Island; Spouting Rock and the Lover's Leap, are but a few of the interesting localities in this beautiful city.

"Old Stone Mill."

Newport was the birthplace of the gifted miniature painter Malbone; and Gilbert Stuart's place of nativity may be seen in Narragansett, across the bay. Stuart made two copies of his great Washington picture for Rhode Island—one can be seen in the State House at Newport, the other in that at Providence. His daughter, Miss Jane Stuart, an artist of much skill, resides in Newport.

The *Newport Mercury*, a paper established in 1758, by James Franklin, brother of Benjamin Franklin, and upon which the latter learned his trade, is still published.

The Old Chair of State, in which Gov. Benedict Arnold sat at the reception of the charter in 1663, when it was proclaimed in the presence of all the freeman of the colony, at Newport, is in the possession of the Gould family.

In 1768, the ship "Endeavor," commanded by Capt. James Cook, sailed from England for the south seas, having on board Sir Joseph Banks, etc., for the purpose of observing the transit of Venus over the Sun's disk, which took place on the 4th of June, 1769.

The "Endeavor," subsequently became engaged in the whaling business. In consequence of the war between England and this country, she put into Newport, was condemned, sold and broken up. William Gilpin, Esq., on Thames street, has in his office the crown taken from her stern. Joshua Sayer, Esq., has a piece of wood about five feet in length taken from her.

F. A. SINCLAIR'S

COMMON-SENSE CHAIRS.

Allow me to call your attention to the Chairs made by me, cut of which I here present. The frames are made of hard wood, principally Maple and White Elm, carefully selected, free from knots and shakes, and thoroughly seasoned. Each round and slat is driven as tight as possible and not split the wood, glued with IX glue, and finished with best turpentine varnish. The seats are composed of Ash splints, split from young, tough timber, and are superior to any in the market for durability and finish, being made by experienced workmen under my own supervision. Having had some twenty years experience in the manufacture of Chairs, and being a practical Chair maker, I feel justified in warranting them superior to any Chair in the market for Hotels, Offices, Saloons, or any place where an extra good Chair is required. All orders must be accompanied with the Cash to receive any attention.

To prevent chafing on cars, No. 4 Chairs will be covered with Burlap, for $1.00 per bundle, two Chairs. No. 1, same as No. 4, 75 cents.

Splint Seat and Back Settees for Piazzas,

40 inches to 4 feet long, $13 each.

All Chairs warranted not to become loose in the joints by wear or shrinkage,

AND IF IMPERFECT,

MAY BE RETURNED ON MY EXPENSE.

Union Arm Chairs for Billiard Rooms, made to order, any Height Desired.

Address, **F. A. SINCLAIR, Mottville, Onondaga Co., N. Y.**

The New Brilliant

SELF-FEEDING,

Double Bottom, Diving Flue, Base Burning

AND

BASE HEATING STOVES.

Manufactured by

RATHBONE, SARD & CO.

ALBANY, CHICAGO, DETROIT.

FOR SALE BY

CHOATE & BRO., - - -	*Auburn, N. Y.*
WALLACE & DAVIS, - -	*Oswego,* "
H. BECKWITH, - - -	*Utica,* "
J. D. ELY, - - - - -	*Rome,* "

1873. 1873.

THE

New Brilliant

SELF FEEDING, DOUBLE BOTTOM, DIVING FLUE BASE BURNING & BASE HEATING STOVE.

We offer this Stove to the trade and the public generally, with the Strongest Confidence that it is unsurpassed, not to say unequalled, by any Base Burning Heating Stove ever put on the market. It is

THE NEW BRILLIANT

not because it is the Old Brilliant made over, but because in this

ENTIRELY NEW STOVE

we have retained whatever the experience of the past five years has shown to be of real value in the

THOUSANDS OF ORIGINAL BRILLIANTS IN DAILY USE.

Adding also some New Features never embodied in any Stove.

It is a ROUND STOVE, of Unsurpassed Design and Most Beautiful Proportions,

MADE ENTIRELY OF CAST IRON,

So that its Durability is insured through a long term of years, as it is impossible to destroy it by rust or exposure.

There is perhaps no single feature of our Stove that will be more universally appreciated than our

NEW SHAKING BASKET

AND

CLINKER FREEING GRATE.

The whole Basket Grate shakes easily from the outside of the Stove, when everything is closed tightly, so that there can be

NO ESCAPE OF DUST.

TO FREE THE GRATE FROM CLINKERS.

Before or after shaking the fire, a poker can be introduced through a Drop Door in the Base of the Stove and through an opening at the front of the Grate, and all clinkers removed without the danger of raking down and wasting unburned coals. Without such an arrangement, Clinkers collect, and the fire becoming choked must be let go out. With our grate

We Guarantee a Fire can be kept all the year round.

All Dust and Ashes are carried away in a ***Bailed Cast Iron Ash Pan.***

THE VERY LARGE FEED HOLE

at the top of the Stove will be appreciated, because with it there need be *No danger of Spilling Coals on the Carpet in filling the*

Perfectly Ventilated Magazine or Feeder,

WARRANTED NEVER TO EXPLODE.

This Magazine is made in Sections, so that when the lower part, nearest the fire, is burned out, it can be renewed without the expense of buying an entire new feeder. The body and lower part of the Stove are made extraordinarily large, to give room for

LARGE FLUES,

Extending Around the Entire Base of the Stove,

and also to make room for a large fire pot in which the live coals can spread out and freely give off their heat through the

Greatest Possible Amount of Radiating Surface,

afforded by the direct radiation of the fire pot, and by the fire passing entirely around the base of the Stove.

THE ILLUMINATING MICA DOORS

are made to open entirely around the body of the Stove, so as to give ready access to the fire.

During our Thirty Years' Experience

in the manufacture of Stoves, we have got together, and there has grown up with us, a body of *Skilled Worknen, unsurpassed anywhere,*

A MASTER MOUNTER

devotes his entire time to inspecting their work, so that

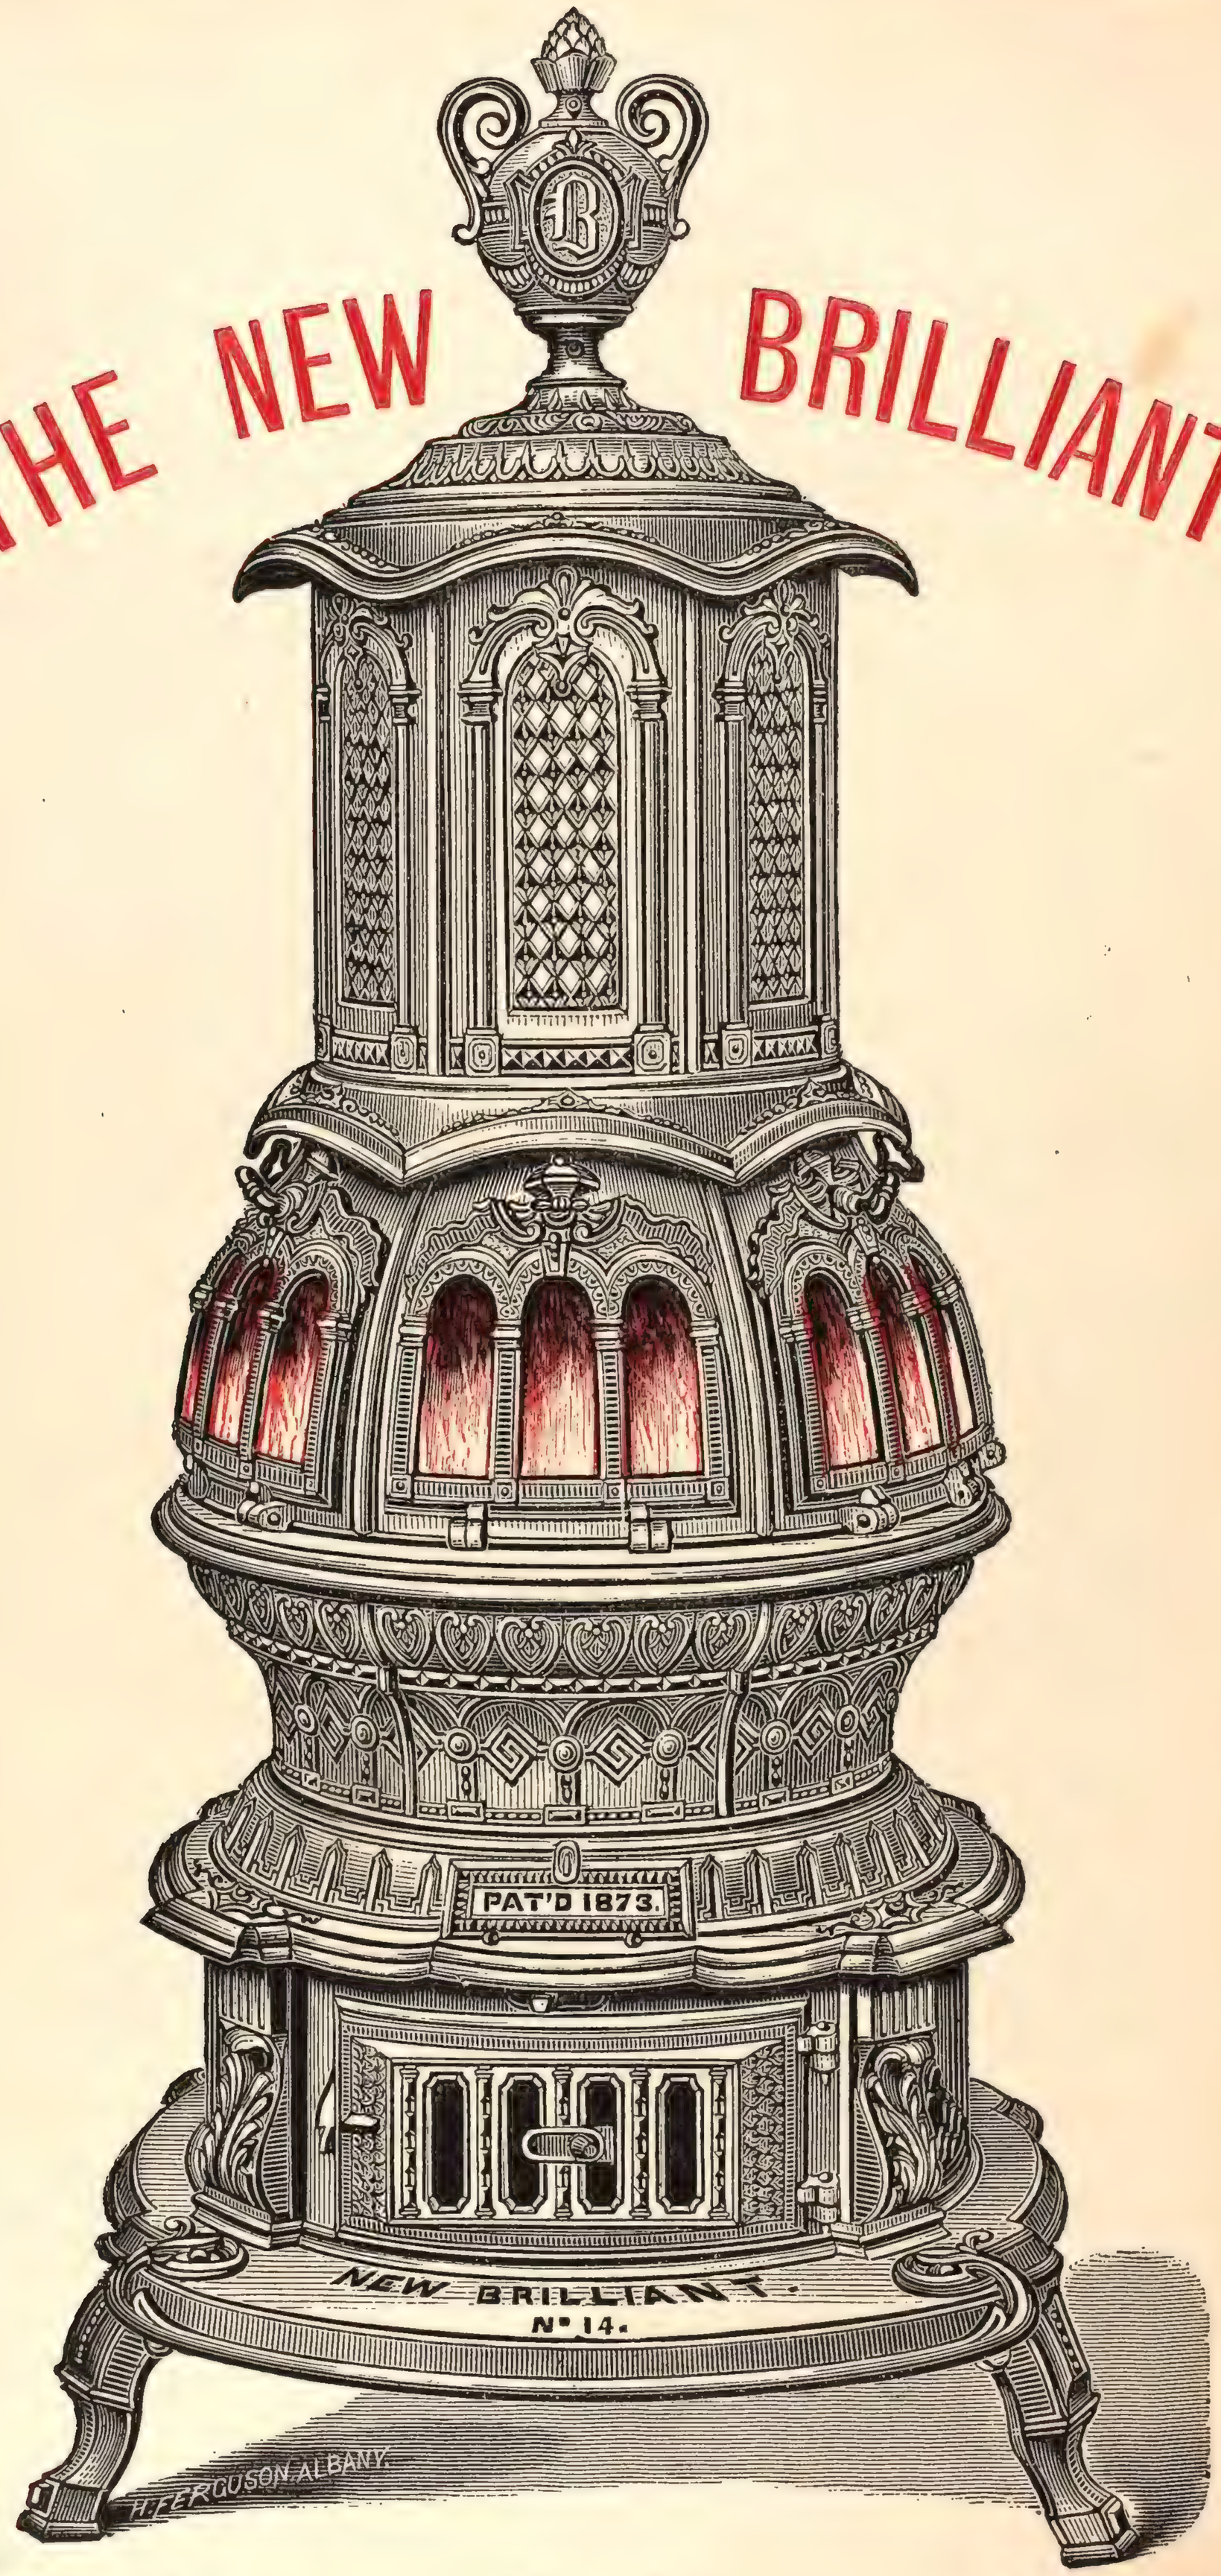

No Defective Stove ever leaves our Foundry,

Hence the NATIONAL REPUTATION of the RATHBONE STOVES and our confidence in guaranteeing

THE DAVIS SEWING MACHINE,

SUPERIOR TO ALL OTHERS !

We now have thousands of this Wonderful Machine in operation. Our patrons are our best advertising mediums. They are constantly sending us customers. One lady has sent us four buyers, and rightly claims to be a public benefactress.

No One Ever Buys any Other Machine after Making the Acquaintance of the

DAVIS!

Ladies who have purchased other Machines have entreated us in the most earnest manner to exchange with them, and let them have the DAVIS; this we cannot do—some days we have had seven applications of this kind, but where we are selling four a day for cash, we can make no exchanges.

The DAVIS is entirely different in its construction from any other Machine, and for that reason is not in competition with any other.
